## PROFESSIONAL PROFILE

João Henrique, 21. Information Systems student (5th semester) at IFBA, with a technical degree in Systems Development from Senai-BA. Full-Stack Developer experienced in JavaScript, TypeScript, PHP, Angular, and React. Currently expanding my expertise through self-directed studies in Java and Spring Boot. Dedicated to becoming a versatile professional, delivering innovative and high-efficiency solutions to meet any market demand.

## EXPERIENCE

### **JUN DE 2025 - CURRENTLY | PASS**

#### Back-End Developer

As a Back-End Developer, I develop RESTful APIs using Node.js with the Fastify framework, structuring routes, controllers, services, and integrations with external APIs. I focus on writing clean, modular, and reusable code, contributing to scalable, high-performance, and maintainable applications.

### **APRIL 2024 - MAR 2025 | WEMIND**

#### Full-Stack Developer

As a Full Stack Developer, I developed secure and efficient routes for API consumption, created responsive and intuitive layouts with a focus on user experience, and implemented WebSockets for real-time communication, improving application interactivity. I used PHP and JavaScript to build scalable solutions, collaborating closely with the design and backend teams to ensure effective integration and resolution of complex challenges.

### **AUG 2024 - MAR 2025 | REKOMENDO**

#### Full-Stack Developer

Rekomendo, an application for advertising and providing services that circulates mainly in my city, Feira de Santana, [rekomendo.com.br](http://rekomendo.com.br), where I was one of the two developers, working both in back and front-end, bringing a pleasant and wide website, with several functionalities for both clients and service providers, using Angular.js in the front-end, javascript in the back-end and Firebase for the database.

## ACADEMIC EDUCATION

### **JAN 2023 - DEC 2027 | IFBA - INSTITUTO FEDERAL DA BAHIA**

Bachelor's Degree in Information Systems.

### **JAN 2022 - JUL 2023 | SERVIÇO NACIONAL DE APRENDIZAGEM INDUSTRIAL (SENAI)**

Technical Course - Systems Development

### **JAN DE 2019 - JUL DE 2021 | UNIVERSIDADE ESTADUAL DA BAHIA - UEFS**

Complete Intermediate English 2 course, through the Portal program.

## **SKILLS**

I am a Full-Stack Developer with solid experience in JavaScript and TypeScript, and an Information Systems student at IFBA. I specialize in the Node.js ecosystem (including NestJS and Fastify) and in front-end development with Angular, React, and Next.js, applying best practices to create reusable components and efficient code.

I have broad experience in front-end and back-end development, with practical experience in consuming APIs and integrating with various databases, such as PostgreSQL, MySQL, and MongoDB (using Mongoose).

My experience includes the development of complex academic and professional projects, as well as the implementation of payment automation systems and integration with banking APIs. Complementing my technical foundation, I have personal and autonomous experience in development with Java and Spring Boot, focusing on robust architecture and design patterns.

Currently, I am focused on enhancing my skills in Java, Spring Boot, Terraform, Docker, AWS, and Artificial Intelligence to further broaden my scope in software development.

## **PARTICIPATION IN EVENTS**

- HACKATHON ÓRBITA - FEIRA DE SANTANA - 2023
- HACKATHON - SMART CITIES - FEIRA DE SANTANA - 2024
- THEMATIC SEMINAR ON TECHNOLOGY AND INNOVATION IN EDUCATION - FEIRA DE SANTANA - 2025
- LAUNCH OF THE INNOVATIVE ENTREPRENEURSHIP TRACK AT THE FEIRA DE SANTANA CAMPUS - IFBA

## **COURSES AND TRAINING**

- JAVA ARCHITECTURE: CREATE A SCALABLE INFRASTRUCTURE - (WORKLOAD: 08H).
- SPRING BOOT 3: DEVELOP A REST API IN JAVA - (WORKLOAD: 10H).
- SPRING BOOT 3: APPLY GOOD PRACTICES AND PROTECT A REST API - (WORKLOAD: 12H).
- SPRING BOOT 3: DOCUMENT, TEST AND PREPARE AN API FOR DEPLOYMENT - (WORKLOAD: 10H).
- DOCKER: CREATING AND MANAGING CONTAINERS - (WORKLOAD: 10H).
- SINGLE PAGE APPLICATION WITH ANGULAR COMPLETION CERTIFICATE - (WORKLOAD: 02H).
- CERTIFICATE OF COMPLETION CREATING A BLOG WITH ANGULAR - (WORKLOAD: 04H).
- CERTIFICATE OF COMPLETION OF THE COURSE WORKING WITH ROUTES IN ANGULAR - (WORKLOAD: 01H).
- CERTIFICATE OF COMPLETION OF THE COURSE WORKING WITH SERVICES IN ANGULAR - (WORKLOAD: 02H).
